

SELFIE project : Routine Vocabulary Terms

You will need to write at least **10 routines that you do regularly (that correspond with the vocabulary terms)**. You will have some time in class but will also need to spend time outside of class to edit your writing as well as to add visuals to this assignment.

Visuals: You will need to provide visuals for each of your routines(it goes without saying that these need to be appropriate). This can be either you taking a picture of yourself going through these routines (powerpoint, or some other document) or have a short video explaining your routines. This should be shared on Google Slides or via email if you are recording from a phone or a camera.

10 sentences with 10 selfies: Each sentence needs to have at least one vocabulary word in the sentence. If you “drink coffee” in the morning that is great (and a key part of the morning for some) but is not on the vocabulary list so it WILL NOT count as one of the 10 sentences. That being said, you can have more than 10 sentences (and probably will).

Grammar: You need to add 2 future tense verbs and 2 conditional tense verbs in the written portion. “I would eat more food but I don’t have time” is a perfect example but the sentences need to be in...Spanish :) Also, remember that these many of these verbs are reflexive and so you will want to be careful to write them in the reflexive voice “me duermo” etc. Or to combine reflexive and future, you could say “esta noche me dormiré”....

This is **due on Wednesday March 11,** before you go to sleep. We will have some more time in class on Thursday and Friday.

Rubric: This project will be out of 20 points.

10 vocabulary terms::: 5 points

10 sentences ::: 5 points

Visuals for each sentence::: 3 points

Grammar (2 future, 2 conditional)::: 4 points

Correct Reflexives: 3 point
